WORK EXPERIENCE

Web Developer and Designing

Oasis Infobyte

06/2023 - 07/2023

Worked as a remote intern performing various projects.

Achievements/Tasks

- Created a simple calculator application using HTML, CSS, JavaScript.
- Created a To-Do web application that helps in tracking daily tasks.
- Created a Tribute page using HTML and CSS.

SKILLS

Python

C

Java

React

Ethical Hacking

Linux

HTML CSS Bootstrap

ThreeJS

PERSONAL PROJECTS

Personal Portfolio (05/2023 - 06/2023)

- Created a **fully responsive**, beautiful 3-D personal portfolio website using **React**, **Tailwind CSS** and **Three.js**

ASL Hand Tracker (01/2023 - 03/2023)

- Developed a Python app that tracks hand signs using **computer vision** to detect ASL. This **Python** application compares the user's hand sign with pre-trained(**Machine Learning**) models using **TensorFlow**. Then the output is displayed on a **web application** via **Flask**.

Smart Car Parking (05/2022 - 06/2022)

- Created a smart parking system model using IR sensors, an Arduino board (involving **Arduino coding**), and servo motors. The system can detect and indicate empty parking space availability along with its specified number.

TRAININGS

WEBEL (06/2023 - 07/2023)

Received industrial training on Artificial Intelligence using Python and completed various projects under the training program.
